Slovakia

## PHEASANT SHOOTING SLOVAKIA

Shooting Pheasant in Slovakia has a long history going back to the Austrian monarchy. We have access to several renowned local estates. We are privileged to have the pheasant shooting rights on five historic estates and we are combining them with first class dining and accommodation facilities. Accommodation is always at the famous **Hotel Château Bela** close to the different estates.

Driven pheasant shooting is offered from November through to February. Typically shooting begins at around 09:30 am with approximately 6 drives during the day, but this depends on the shooting abilities and the time of the year. Each day is held at a different estate.

The outstanding topography of the estates, show challenging and spectacular birds from a mix of established woodland and strategically sited cover crops. Each gun will be assigned a loader who will take care of your guns, cartridges and score your birds. Light refreshments are served in the field after the second drive of the day. Lunch is served in the lodges located within each estate.

The pheasants are released before the hunt and are pushed by dogs and beaters. We have three challenging estates for high birds and two estates with moderate heights...

Please contact my for an individual offer!
